Research project *The European Irregularized Migration Regime at the Periphery of the EU: from Ethnography to Keywords* (ERIM) coordinated by [The Institute of Ethnology and Folklore Research](#), and financed by [The Croatian Science Foundation](#) (IP 2019-04-6642), strives to document and analyse irregularized migrations in the transnational space formed by migratory movements that in various directions cross borders between Croatia, Slovenia, Serbia etc. Based on the multi-sited ethnographic research (observation, participation, interviews and other methods), research associates from Croatia, Slovenia and Serbia in the framework of ERIM aim to encompass the levels and experiences of different agents, from refugees and other migrants, to members of local communities, and employees and representatives of local authorities, international and other organizations. By distancing from the notion that the migration regime is a signifier of the abstract

KOSTURNICA U DREŽNICI

Pogled na Kosturnicu u Drežnici

Kosturnica u Drežnici. Maketa. (Arhitektonsko rješenje Ing. arh. VLADIMIR UGRENOVIC)

Ova spomen kosturnica, podignuta na zavoju velebitske ceste iznad Drežnice, obilježava mjesto, gdje je za vrijeme rata bila sedma partizanska bolnica.

Uz konturu prizadnog proširenja ceste na ovom mjestu podignut je jednostavni kameni zid, koji na jednom mjestu sučelice prilaza iz Drežnice nosi reljef.

Kosturnica je odvojena od priprostora jednostavnim rešetkom, tako da prolaznik može pogledom obuhvatiti sav interijer sa spomen pločom. Budući da je taj prostor nenatkriven, osvjetljenje je prirodno, a šuma i dalje ostaje jedinim dekorom.

Osnovni utisak mira ovog grobišta postignut je upotrebom najjednostavnijih sredstava, a da uz to nije narušen karakter kraške šume.
